# How To Make Out-of-Town Calls

Out-of-Town calls can be completed almost as quickly as local calls, providing you give the telephone number when calling.

Keeping a record of out-of-town num-

bers frequently called will save time on future calls. If you wish to have the telephone numbers of a list of out-of-town subscribers, our Business Office will be glad to furnish them.

## OUT-OF-TOWN CALLS ARE OF TWO GENERAL CLASSES:

### Station-to-Station Calls

When you want us to do nothing more than to connect you with an individual line or party line telephone or private switchboard, call "Long Distance" and tell the operator the city, state and the telephone number. If you don't know the number, give the operator the name and address as for example: "St. Louis, Missouri, ANYONE at Read's Department Store, 2100 Broad Street." Give your number when the operator requests it.

The charge for a Station-to-Station call begins when the called telephone or private switchboard answers.

Station-to-Station service should be used when you are willing to talk to ANYONE answering the called telephone or when you are sure the person with whom you wish to talk will be there.

See the next column if you want to call either a particular person or a particular telephone or department reached through a private switchboard.

### Person-to-Person Calls

When you want to be connected with some particular person or with a particular telephone or department reached through a private switchboard, call "Long Distance." Tell the operator the city, state, and person or department wanted, and also the telephone number and extension number if you know them. Give your number when the operator requests it.

The charge for a Person-to-Person call begins when you reach the person, extension, or department you want.

Appointment and Messenger calls take Person-to-Person rates plus the cost of any messenger service performed. Messenger charges incurred are to be paid whether or not conversation is held.

## Day, Night and Sunday Rates

DAY RATES apply to Station-to-Station and Person-to-Person calls between 4:30 A.M. and 6:00 P.M. on all days except Sunday.

NIGHT and SUNDAY RATES. Reduced rates apply between 6:00 P.M. and 4:30 A.M. daily and all day Sunday if the initial period rate exceeds 55 cents for a Station-to-Station call or 85 cents for a Person-to-Person call.

The time of day, at the originating point, when conversation starts, determines whether DAY or NIGHT AND SUNDAY rates apply.

## Collect Calls

A COLLECT CALL is a Station-to-Station or Person-to-Person call, for which you wish to have the subscriber at the distant point pay the charges. The regular Day, Night and Sunday rates for Person-to-Person and Station-to-Station calls apply except that:

On collect Station-to-Station calls where the initial period rate is less

than 20 cents, a flat additional charge of 10 cents applies, and where the initial period rate is 20 cents the collect rate is 25 cents.

A request to make a call collect should be given to the operator when the call is placed, so that she can endeavor to obtain acceptance of the charges before the connection is established.

## Requests for Rates and Charges

On request, the operator will quote the rate to any out-of-town point. If you wish to be told the charges on a particular call, make the request when you place

the call or when you accept a "collect" call. The operator will call you back and quote charges.

Typical Out-of-Town Rates may be found on Page One of this directory.

## International, Aircraft and Ship Telephone Service

Telephone service is available from your telephone to certain foreign countries, subject to such limitations with respect to completion as may be enforced from time to time by the government of such country or by the United States Government.

Telephone service is also offered to certain aircraft, and to many ships on inland waterways, coastal waters and the high seas when they are within reach. To place a call from your telephone to an aircraft or vessel, call "Long Distance."

## Mobile Telephone Service

Provides two-way voice communication between any telephone reached by the Bell System and an automobile, truck, boat, etc. suitably equipped with a mobile radio-telephone.

To place a call to a mobile telephone call Long Distance and ask for the Mobile Service Operator.

For rates or other information regarding mobile telephone service please call the Business Office.

## "BEEP" Tone Tells When Telephone Conversation Is Being Recorded

A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line.

This signal is provided by the telephone company for your protection. If you do not want a record made of what you are saying, ask the person with

whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

Nothing will do more to help you enjoy "all the comforts of home" than handy extension telephones. This aid to modern living brings a lot of comfort and convenience — saves you time and countless steps every day.

The kitchen and bedroom are probably the most popular telephone locations, but many folks find that another telephone in the utility room, work shop, play room or near the laundry, makes things easier all around.

A sign in a store window, or over the merchant's door, tells the passerby what is sold and who sells it. An advertisement in the Yellow Pages of the directory brings the same message to a far larger and more important group. Recent surveys show that a large percentage of all telephone subscribers use the Classified to help them in their buying.

A sign in a store window, or over the merchant's door, tells the passerby what is sold and who sells it. An advertisement in the Yellow Pages of the directory brings the same message to a far larger and more important group. Recent surveys show that a large percentage of all telephone subscribers use the Classified to help them in their buying.
